1. Aims

Our school aims to ensure that all personal data collected about staff, pupils, parents, governors, visitors and other individuals is collected, stored and processed in accordance with the [General Data Protection Regulation \(EU\) 2016/679 \(GDPR\)](#) and the [Data Protection Act 2018 \(DPA 2018\)](#).

This policy applies to all personal data, regardless of whether it is in paper or electronic format.

2. Legislation and guidance

This policy meets the requirements of the GDPR and the DPA 2018. It is based on guidance published by the Information Commissioner’s Office (ICO) on the [GDPR](#).

It also reflects the ICO’s [code of practice](#) for the use of surveillance cameras and personal information.

In addition, this policy complies with our funding agreement and articles of association.

3. Definitions

TERM	DEFINITION
Personal data	Any information relating to an identified, or identifiable, living individual. This may include the individual’s: <ul style="list-style-type: none"> Name (including initials) Identification number Location data Online identifier, such as a username It may also include factors specific to the individual’s physical, physiological, genetic, mental, economic, cultural or social identity.
Special categories of personal data	Personal data which is more sensitive and so needs more protection, including information about an individual’s: <ul style="list-style-type: none"> Racial or ethnic origin Political opinions Religious or philosophical beliefs Trade union membership Genetics Biometrics (such as fingerprints, retina and iris patterns), where used for identification purposes Health – physical or mental Sex life or sexual orientation
Processing	Anything done to personal data, such as collecting, recording, organising, structuring, storing, adapting, altering, retrieving, using, disseminating, erasing or destroying. Processing can be automated or manual.
Data subject	The identified or identifiable individual whose personal data is held or processed.
Data controller	A person or organisation that determines the purposes and the means of processing of personal data.
Data processor	A person or other body, other than an employee of the data controller, who processes personal data on behalf of the data controller.
Personal data breach	A breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to, personal data.

4. The data controller

Our school processes personal data relating to parents, pupils, staff, governors, visitors and others, and therefore is a data controller.

The school is registered with the ICO and will renew this registration annually or as otherwise legally required.

5. Roles and responsibilities

This policy applies to **all staff** employed by our school, and to external organisations or individuals working on our behalf. Staff who do not comply with this policy may face disciplinary action.

5.1 Governing board

The governing board has overall responsibility for ensuring that our school complies with all relevant data protection obligations.

5.2 Data protection officer

The data protection officer (DPO) is responsible for overseeing the implementation of this policy, monitoring our compliance with data protection law, and developing related policies and guidelines where applicable.

They will provide an annual report of their activities directly to the governing board and, where relevant, report to the board their advice and recommendations on school data protection issues.

The DPO is also the first point of contact for individuals whose data the school processes, and for the ICO.

Full details of the DPO's responsibilities are set out in their job description.

Our DPO is Claire Nicholas from Entrust and is contactable via the school office on 01889 228700 or email office@picknalls.staffs.sch.uk

5.3 Headteacher

The headteacher acts as the representative of the data controller on a day-to-day basis.

5.4 All staff

Staff are responsible for:

Collecting, storing and processing any personal data in accordance with this policy

Informing the school of any changes to their personal data, such as a change of address

Contacting the DPO in the following circumstances:

-  With any questions about the operation of this policy, data protection law, retaining personal data or keeping personal data secure
-  If they have any concerns that this policy is not being followed
-  If they are unsure whether or not they have a lawful basis to use personal data in a particular way
-  If they need to rely on or capture consent, draft a privacy notice, deal with data protection rights invoked by an individual, or transfer personal data outside the European Economic Area
-  If there has been a data breach
-  Whenever they are engaging in a new activity that may affect the privacy rights of individuals
-  If they need help with any contracts or sharing personal data with third parties

6. Data protection principles

The GDPR is based on data protection principles that our school must comply with.

The principles say that personal data must be:

-  Processed lawfully, fairly and in a transparent manner
-  Collected for specified, explicit and legitimate purposes
-  Adequate, relevant and limited to what is necessary to fulfil the purposes for which it is processed
-  Accurate and, where necessary, kept up to date
-  Kept for no longer than is necessary for the purposes for which it is processed
-  Processed in a way that ensures it is appropriately secure

This policy sets out how the school aims to comply with these principles.

7. Collecting personal data

7.1 Lawfulness, fairness and transparency

We will only process personal data where we have one of 6 'lawful bases' (legal reasons) to do so under data protection law:

-  The data needs to be processed so that the school can **fulfil a contract** with the individual, or the individual has asked the school to take specific steps before entering into a contract
-  The data needs to be processed so that the school can **comply with a legal obligation**
-  The data needs to be processed to ensure the **vital interests** of the individual or another person i.e. to protect someone's life
-  The data needs to be processed so that the school, as a public authority, can **perform a task in the public interest or exercise its official authority**
-  The data needs to be processed for the **legitimate interests** of the school (where the processing is not for any tasks the school performs as a public authority) or a third party, provided the individual's rights and freedoms are not overridden
-  The individual (or their parent/carer when appropriate in the case of a pupil) has freely given clear **consent**

For special categories of personal data, we will also meet one of the special category conditions for processing under which are set out in the GDPR and Data Protection Act 2018.

If we offer online services to pupils, such as classroom apps and we intend to rely on consent as a basis for processing, we will get parental consent.

Whenever we first collect personal data directly from individuals, we will provide them with the relevant information required by data protection law.

We will always consider the fairness of our data processing. We will ensure we do not handle personal data in ways that individuals would not reasonably expect, or use personal data in ways which have unjustified adverse effects on them.

7.2 Limitation, minimisation and accuracy

We will only collect personal data for specified, explicit and legitimate reasons. We will explain these reasons to the individuals when we first collect their data.

If we want to use personal data for reasons other than those given when we first obtained it, we will inform the individuals concerned before we do so, and seek consent where necessary.

Staff must only process personal data where it is necessary in order to do their jobs.

We will keep data accurate and, where necessary, up-to-date. Inaccurate data will be rectified or erased when appropriate.

In addition, when staff no longer need the personal data they hold, they must ensure it is deleted or anonymised. This will be done in accordance with the [Information and Records Management Society's toolkit for schools](#).

8. Sharing personal data

We will not normally share personal data with anyone else without consent, but there are certain circumstances where we may be required to do so. These include, but are not limited to, situations where:

There is an issue with a pupil or parent/carer that puts the safety of our staff at risk

We need to liaise with other agencies – we will seek consent as necessary before doing this

Our suppliers or contractors need data to enable us to provide services to our staff and pupils – for example, IT companies.

When doing this, we will:

- 🔒 Only appoint suppliers or contractors which can provide sufficient guarantees that they comply with data protection law
- 🔒 Establish a contract with the supplier or contractor to ensure the fair and lawful processing of any personal data we share
- 🔒 Only share data that the supplier or contractor needs to carry out their service

We will also share personal data with law enforcement and government bodies where we are legally required to do so.

We may also share personal data with emergency services and local authorities to help them to respond to an emergency situation that affects any of our pupils or staff.

Where we transfer personal data internationally, we will do so in accordance with data protection law.

COVID-19 Track and Trace

Please note that as the UK is currently experiencing a public health emergency as a result of the coronavirus (COVID19) pandemic. It is therefore critical that our school take a range of measures to keep everyone safe.

The easing of social and economic lockdown measures following the COVID-19 outbreak is being supported by NHS Test and Trace. We have to assist this service by keeping a temporary record of all our parents/carers and visitors for 21 days, in a way that is manageable for our school, and to assist the NHS Test and Trace with requests for that data if needed. This could help contain clusters or future outbreaks.

Given this situation, we are on a temporarily basis collecting and retaining additional information relating to visitors to our school to help the NHS Test and Trace strategy. For this to work, we will be asking everyone who is not a regular member of staff to submit the following details (as applicable):

- 🔒 Name
- 🔒 Company
- 🔒 Date of visit
- 🔒 Time of arrival and departure

If we already hold your email address and telephone number securely, we will include this in our data collection. If we do not have these details on record, we will collect these from you. We will also record who you visit and are in contact with.

We will only share the information when it is requested by a legitimate public health authority e.g. NHS, Appointed Government Representative.

9. Subject access requests and other rights of individuals

9.1 Subject access requests

Individuals have a right to make a 'subject access request' to gain access to personal information that the school holds about them. This includes:

- 🔒 Confirmation that their personal data is being processed
- 🔒 Access to a copy of the data
- 🔒 The purposes of the data processing
- 🔒 The categories of personal data concerned
- 🔒 Who the data has been, or will be, shared with
- 🔒 How long the data will be stored for, or if this isn't possible, the criteria used to determine this period
- 🔒 Where relevant, the existence of the right to request rectification, erasure or restriction, or to object to such processing
- 🔒 The right to lodge a complaint with the ICO or another supervisory authority
- 🔒 The source of the data, if not the individual
- 🔒 Whether any automated decision-making is being applied to their data, and what the significance and consequences of this might be for the individual
- 🔒 The safeguards provided if the data is being transferred internationally

Subject access requests can be submitted in any form, but we may be able to respond to requests more quickly if they are made in writing and include:

- 1. Name of individual
- 2. Correspondence address
- 3. Contact number and email address
- 4. Details of the information requested

If staff receive a subject access request in any form they must immediately forward it to the DPO.

9.2 Children and subject access requests

Personal data about a child belongs to that child, and not the child's parents or carers. For a parent or carer to make a subject access request with respect to their child, the child must either be unable to understand their rights and the implications of a subject access request, or have given their consent.

Children below the age of 12 are generally not regarded to be mature enough to understand their rights and the implications of a subject access request. Therefore, most subject access requests from parents or carers of pupils at our school may be granted without the express permission of the pupil. This is not a rule and a pupil's ability to understand their rights will always be judged on a case-by-case basis.

9.3 Responding to subject access requests

When responding to requests, we:

- 1. May ask the individual to provide 2 forms of identification
- 2. May contact the individual via phone to confirm the request was made
- 3. Will respond without delay and within 1 month of receipt of the request (or receipt of the additional information needed to confirm identity, where relevant)
- 4. Will provide the information free of charge
- 5. May tell the individual we will comply within 3 months of receipt of the request, where a request is complex or numerous. We will inform the individual of this within 1 month, and explain why the extension is necessary
- 6. We may not disclose information for a variety of reasons, such as if it:
 - 1. Might cause serious harm to the physical or mental health of the pupil or another individual
 - 2. Would reveal that the child is being or has been abused, or is at risk of abuse, where the disclosure of that information would not be in the child's best interests
 - 3. Would include another person's personal data that we can't reasonably anonymise, and we don't have the other person's consent and it would be unreasonable to proceed without it
 - 4. Is part of certain sensitive documents, such as those related to crime, immigration, legal proceedings or legal professional privilege, management forecasts, negotiations, confidential references, or exam scripts

If the request is unfounded or excessive, we may refuse to act on it, or charge a reasonable fee to cover administrative costs. We will take into account whether the request is repetitive in nature when making this decision.

When we refuse a request, we will tell the individual why, and tell them they have the right to complain to the ICO or they can seek to enforce their subject access right through the courts.

9.4 Other data protection rights of the individual

In addition to the right to make a subject access request (see above), and to receive information when we are collecting their data about how we use and process it (see section 7), individuals also have the right to:

- 1. Withdraw their consent to processing at any time
- 2. Ask us to rectify, erase or restrict processing of their personal data (in certain circumstances)
- 3. Prevent use of their personal data for direct marketing
- 4. Object to processing which has been justified on the basis of public interest, official authority or legitimate interests
- 5. Challenge decisions based solely on automated decision making or profiling (i.e. making decisions or evaluating certain things about an individual based on their personal data with no human involvement)
- 6. Be notified of a data breach (in certain circumstances)
- 7. Make a complaint to the ICO
- 8. Ask for their personal data to be transferred to a third party in a structured, commonly used and machine-readable format (in certain circumstances)

Individuals should submit any request to exercise these rights to the DPO. If staff receive such a request, they must immediately forward it to the DPO.

10. Parental requests to see the educational record

There is no automatic parental right of access to the educational record for academies and multi-academy trusts. If you wish to access your child's educational record please contact the school office.

11. Photographs and Videos

As part of our school activities, we may take photographs and record images of individuals within our school. We will obtain written consent from parents/carers for photographs and videos to be taken of their child for communication, marketing and promotional materials. We will clearly explain how the photograph and/or video will be used to both the parent/carer and pupil.

Uses may include:

- 📌 Within school on notice boards and in school magazines, brochures, newsletters, etc.
- 📌 Outside of school by external agencies such as the school photographer, newspapers, campaigns
- 📌 Online on our school website or social media pages

Consent can be refused or withdrawn at any time. If consent is withdrawn, we will delete the photograph or video and not distribute it further.

When using photographs and videos in this way we will not accompany them with any other personal information about the child, to ensure they cannot be identified.

See our [Online Safety and Internet Usage Policy](#) for more information on our use of photographs and videos.

12. CCTV

We use CCTV in various locations around the school site to ensure it remains safe. We will adhere to the ICO's [code of practice](#) for the use of CCTV.

We do not need to ask individuals' permission to use CCTV, but we make it clear where individuals are being recorded. Security cameras are clearly visible and accompanied by prominent signs explaining that CCTV is in use.

Any enquiries about the CCTV system should be directed to Anne Tapp, Headteacher. See our [CCTV Policy](#) for further information.

13. Data protection by design and default

We will put measures in place to show that we have integrated data protection into all of our data processing activities, including:

- 📌 Appointing a suitably qualified DPO, and ensuring they have the necessary resources to fulfil their duties and maintain their expert knowledge
- 📌 Only processing personal data that is necessary for each specific purpose of processing, and always in line with the data protection principles set out in relevant data protection law (see section 6)
- 📌 Completing data protection impact assessments where the school's processing of personal data presents a high risk to rights and freedoms of individuals, and when introducing new technologies (the DPO will advise on this process)
- 📌 Integrating data protection into internal documents including this policy, any related policies and privacy notices
- 📌 Regularly training members of staff on data protection law, this policy, any related policies and any other data protection matters; we will also keep a record of attendance
- 📌 Regularly conducting reviews and audits to test our privacy measures and make sure we are compliant
- 📌 Appropriate safeguards being put in place if we transfer any personal data outside of the European Economic Area (EEA), where different data protection laws will apply
- 📌 Maintaining records of our processing activities, including:
 - 📌 For the benefit of data subjects, making available the name and contact details of our school and DPO and all information we are required to share about how we use and process their personal data (via our privacy notices)
 - 📌 For all personal data that we hold, maintaining an internal record of the type of data, type of data subject, how and why we are using the data, any third-party recipients, any transfers outside of the EEA and the safeguards for those, retention periods and how we are keeping the data secure

14. Data security and storage of records

We will protect personal data and keep it safe from unauthorised or unlawful access, alteration, processing or disclosure, and against accidental or unlawful loss, destruction or damage.

In particular:

- 📌 Paper-based records and portable electronic devices, such as laptops and hard drives that contain personal data, are kept under lock and key when not in use
- 📌 Papers containing confidential personal data must not be left on office and classroom desks, on staffroom tables, or left anywhere else where there is general access
- 📌 Where personal information needs to be taken off site, staff must sign it in and out from the school office
- 📌 Passwords that are at least 10 characters long containing letters and numbers are used to access school computers, laptops and other electronic devices. Staff and pupils are reminded that they should not reuse passwords from other sites
- 📌 Encryption software is used to protect all portable devices and removable media, such as laptops and USB devices
- 📌 Staff, pupils or governors who store personal information on their personal devices are expected to follow the same security procedures as for school-owned equipment (see our [Online Safety and Internet Usage Policy](#))
- 📌 Where we need to share personal data with a third party, we carry out due diligence and take reasonable steps to ensure it is stored securely and adequately protected (see section 8)

15. Disposal of records

Personal data that is no longer needed will be disposed of securely. Personal data that has become inaccurate or out of date will also be disposed of securely, where we cannot or do not need to rectify or update it.

For example, we will shred or incinerate paper-based records, and overwrite or delete electronic files. We may also use a third party to safely dispose of records on the school's behalf. If we do so, we will require the third party to provide sufficient guarantees that it complies with data protection law.

16. Personal data breaches

The school will make all reasonable endeavours to ensure that there are no personal data breaches.

When appropriate, we will report the data breach to the ICO within 72 hours after becoming aware of it. Such breaches in a school context may include, but are not limited to:

-  A non-anonymised dataset being published on the school website which shows the exam results of pupils eligible for the pupil premium
-  Safeguarding information being made available to an unauthorised person
-  The theft of a school laptop containing non-encrypted personal data about pupils

17. Training

All staff and governors are provided with data protection training as part of their induction process.

Data protection will also form part of continuing professional development, where changes to legislation, guidance or the school's processes make it necessary.

18. Monitoring arrangements

The DPO is responsible for monitoring and reviewing this policy.

This policy will be reviewed if necessary when the Data Protection Bill receives royal assent and becomes law (as the Data Protection Act 2018) – if any changes are made to the bill that affect our schools practice. Otherwise, or from then on, this policy will be reviewed every **2 years** and shared with the full governing board.

19. Links with other policies

This data protection policy is linked to our:

-  [Online Safety and Internet Usage Policy](#)
-  [CCTV Policy](#)
